Ievo

Ievo Ultimate Rev 4

Category: Access Control Equipment

Sub Category: Biometrics

Description

ULTIMATE READER HEAD - The Ultimate reader encompasses Multi Spectral imaging technology. This technology captures 9 images all at once from the surface and below the skin enabling a quality image capture and claims to image through levels of grease, oil, water, dust, and dirt. The reader is IP65 weather proof and has a built in thermostat controlled heating system. The system has built in spoof detection and a compact vandal resistant case. CONTROL BOARD – Can control 2 fingerprint readers. A single wire connection (cat5e network), with AES128 encryption (between Head & Board). Control board can be powered using AC/DC wide tolerance or POE. Template capacity options are for 10,000 or 50,000 fingerprint templates.

Manufacturer

Manufacturer Name:	Ievo
