

GPS Perimeter Systems Ltd.

# GPS Plus

**Category:** Detection Systems

**Sub Category:** Ground Based Detection

## Description

This buried system detects differential pressure between 2 fluid-filled tubes.

## Manufacturer

Manufacturer Name:	GPS Perimeter Systems Ltd.
--------------------	----------------------------

Post Code:	NN3 6HY
------------	---------

Address Line 1:	14 Low Farm Place
-----------------	-------------------

Address Line 2:	Moulton Park
-----------------	--------------

State/County:	Northampton
---------------	-------------

Telephone:	01604 648344
------------	--------------

Email:	dan@gpsperimeter.co.uk
--------	------------------------

---

## Specification

The system was tested in coarse non-compacting river sand, with a top layer of turf. Zone lengths can measure up to 100 metres. Requires access pits, to contain the sensors and pressurise the tubes.
