Omnitrax

Category: Detection Systems

Sub Category: Ground Based Detection

The Senstar logo is displayed in a blue, bold, sans-serif font. The word "SENSTAR" is followed by a registered trademark symbol (®). The logo is contained within a thin blue rectangular border.

Description

OmniTrax is a terrain-following covert outdoor perimeter intrusion detection sensor. Sensor cables buried in the ground generate an invisible electromagnetic detection field. It functions as a standalone system, can be fully integrated into any command-and-control system, and can cover large perimeters with limited infrastructure.

Manufacturer

Manufacturer Name:	Senstar Ltd
Post Code:	WR12 7HU
Address Line 1:	Orchard House
Address Line 2:	Evesham Road, Broadway
State/County:	Worcestershire
Telephone:	01386 834433
Fax:	01386 834477
Email:	senstaruk@senstar.com

Specification

- Covertly detect and locate perimeter intrusions over a distance of up to 800 m (1/2 mi) per sensor processor
 - Cables available in 50m, 100m, 150m, 200m, 300m & 400m lengths
 - Software-based zoning (up to 50 distinct zones per processor)
 - Software integration supported with a wide range of VMS, SMS & PSIM solutions
-
