## Description

Rhino large hangar doors are available in different configurations – sliding and sliding/folding, and are electrically operated. These doors can be designed to suit portals up to 48m wide and 11m high.

## Manufacturer

Manufacturer Name:	Rhino Systems Ltd
Post Code:	SA13 1RF
Address Line 1:	Maritime Road Llewellyns Quay
State/County:	Port Talbot
Telephone:	+44 (0)1639 888119
Email:	enquiries@rhinodoors.com

## Specification

Steel faced, steel framed, large access doors are top hung with bottom supported ground tracks for guidance and enhanced security. Operated by electric push-button operation, with either manual or electronic ground bolts. Personnel 'wicket' doors with NPSA locking systems can be added to the doors.

Interlocking seals around the door edges provide sealing against weather ingress and air leakage. Door operation can be one-way, two-way or bi-parting, and available in different colours and finishes.

Rhino doors are Made in Britain.
