Specification

The shutter is described on the following document available from the manufacturer:

- 210-B - Obexion™ MD XR - Obexion™ SR5 security shutter details tubular motor.

The roller shutter tested was:

- Installed across a structural opening measuring 1500 mm by 2000mm.

- Internally face-fitted
- Operated using a tubular motor located on the secure side of the shutter
- Secured in the closed position by the combined action of the motor and self-locking laths

If users wish to deviate from the dimensions stated they do so at their own risk.
