

Apex Engineering Group

Apex 'Templar' Tower/CPU Container

Category: Security Containers

Sub Category: Computer Containers

Description

.A sliding shelf arrangement makes installation of the Tower Unit straightforward and cable connections easily accessible. A cable management system is located in the back panel for the secure entry and exit of cables. Ventilation is also provided. A fan can be fitted if required instead of the ventilation panel. However they are available to exact customer specification, alternative widths and depths available on request. Available in a choice of RAL colours.
