

Apex Engineering Group

Apex 'Templar Shield' 1 door (5 x 2) Cupboard

Category: Security Containers

Sub Category: Office Furniture Cupboards

Description

The containers are available with any Approved high security lock and come with three shelves as standard and offers resistance against forced entry and other threats. You must inform Apex what container you require based on your organisation's threat as the construction differs for a Templar to a Templar Shield container. If not informed otherwise Apex will supply the standard approved container (Templar range). A typical Templar secure container weighs approx. 190 kg. The same container with Templar Shield weighs 205 kg.

However they are available to exact customer specification, alternative widths and depths available on request.

Available in a choice of RAL colours.
