Chubb Systems Fire & Security Ltd t/a Chubb Systems

ADACS+ Assure

Category: CAPSS Approved

Standard Tested To: CAPSS - Version 2: April 2015

Description

The Chubb Systems ADACS+ Assure is a PC based fully integrated security and information management system. ADACS+ Assure is fully scalable from a single site connected by a local area network to multiple sites over wide area networks. Zone Management Units (ZMUs) are the system data controllers, providing access control functions with local intelligence and additional alarm input and output capabilities. ZMUs are securely networked to the ADACS+ Assure system controller to produce a fully integrated and expandable access control system.

Manufacturer

Manufacturer Name:	Chubb Systems Fire & Security Ltd t/a Chubb Systems
