Email:	michael.knight@donruffles.co.uk

Specification

The InfoStroyer 101 scrapes off and removes the entire top and or bottom layer of a CD, rendering it absolutely useless and free from all Data Media. The particles are vacuumed into a disposable bag.

The InfoStroyer 101 is fully automatic and uses a very quick 4 second destruction cycle. In the event of a power failure the Disc can be manually ejected in the event of power loss. The unit can be supplied with a Transport Case or 12v Emergency Battery Backup Options.
