

Remtech (Computer Security) Ltd

ModuSec GSB - Vertical Span

Category: Walls and Enclosures

Sub Category: Modular Walling and Enclosures

Standard Tested To: MFES v1.0 Building Fabric

Description

Modular walling system formed from a series of specialist composite panels with an additional overlaid panel to achieve the additional levels of protection. The panels can be installed in a vertical or horizontal orientation, with steel angles installed at the wall connections. The orientation of the panels will affect the level of blast protection it can provide. (no apertures were assessed).

Manufacturer

Manufacturer Name: Remtech (Computer Security) Ltd

Country: United Kingdom

Post Code: BH31 7PH

Address Line 1: 5 Burrows Lane Verwood

State/County: Dorset
