Specification

CR20212-260a (Revision C04, 26/1/22) - General arrangement of double leaf doorset suiting a 1580 mm by 2090 mm structural opening.

CR20212 – Installation method statement.

The doorset suits a 1580 mm wide by 2090 mm high structural opening. Its total weight is approximately 632 kg, while its active leaf weighs approximately 290 kg and its passive leaf weighs approximately 265 kg.

A larger version of the doorset, suiting a structural opening measuring 2780 mm wide by 2790 mm high, has also been demonstrated to achieve the same protection level.
