Carrier Fire & Security (UK) Ltd

# Advisor Advanced

**Category:** Detection Systems

**Sub Category:** Control and Indicating Equipment

## Description

Advisor Advanced is an Integrated Intrusion System allowing a wide range of peripheral devices to be added for maximum flexibility. The product family has 3 variants allowing 32, 128 or 512 Detectors, that can be configured for between 4 and 64 independent areas. Detectors may be assigned to specific Area(s), and each Area can have a specific user interface if required. User credentials (Secure Mifare card and/or PIN) are secure and encrypted between all components of the system.
