

Meesons A. I. LTD

Meesons E1G Security Portal

Category: Doors, Tubestiles, Turnstiles and Locking Hardware

Sub Category: Portals and Turnstiles

Standard Tested To: MTAS V1.0

Description

The E1G High Security Portal is a compact classic design allowing the portal to blend in with the building façade, whilst maintaining an extremely secure line. The intuitive interlocking system ensures that your secure area can only be accessed by authorised personnel.
