PAS 1192-5: High-level navigational flowchart

This flowchart provides a navigational overview of the key management processes set out in PAS 1192-5:2015, "A specification for security-minded building information modelling, digital built environments and smart asset management".

The numbers refer to the clauses in the PAS.

Copies of PAS1192-5 may be downloaded from http://shop.bsigroup.com/pas1192-5

Decision to create a new built asset, or identify need to undertake a review of an existing one

↓

Assessment of the extent of security-minded approach required *5*

↓

Assessment of security risk to the built asset, in whole or in part *7*

↓

Decision on appropriate and proportionate mitigation measures commensurate with risk appetite *7*

↓

Formal record of the organisation's security strategy and management plan for the built asset *7, 8, 9, 10 & 13*

↓

Implementation of appropriate and proportionate policies, processes and procedures *7, 8, 9, 10, 11 & 12*

↓

Regular review, and review in response to incidents and breaches and significant internal or external changes
